

ACCOMMODATIONS

This list includes only hotels and other local resources for accommodations. At one time we had many private homes, condos and apartments listed. However, we feel the best thing a patient can do to most easily and quickly identify an accommodation ***available during the time frame they need - and with the features they need*** - is to search online sites, such as those listed below. Searching online will allow you to see the current price and current availability as well as select for desired features, such as “pet friendly”, “Wi Fi”, etc. It will also help you avoid the frustrations of calling and/or emailing listings only to find the properties are rented, sold, too expensive, etc.
